

VSP Computer VisionCare Plan

Nearly 60% of adults report experiencing symptoms of digital eye strain. People spending two or more continuous hours at a computer or using a digital screen device every day are most at risk.¹

Many people aren't aware they're experiencing digital eye strain, which may include one or more of the following symptoms: dry eyes, blurred vision, tired eyes, sore eyes, headaches, or watery eyes.

Ask your VSP® network doctor about eyewear specifically designed to reduce the impact of excessive digital device use, with features such as anti-reflective and blue light filtering capabilities.

YOUR VSP COMPUTER VISIONCARESM PLAN COVERAGE WITH A VSP NETWORK DOCTOR*
